#### STEREO INTEGRATED AMPLIFIER

*This is the one to beat in the two-channel amp arena. To provide the distinctive, dynamic, lively sound quality that made Harman Kardon a legend, the HK 670 is endowed with high-current capability, achieved through very impressive current storage capacity. The significance of the ability to deliver 2 x 75-watt of serious power into virtually any loudspeaker load will be clear the first time your speakers are connected. While others offer inflated specifications, the HK 670 delivers performance.*

# HK 670

## Specifications

- Continuous Average Power (FTC): 75 watts x 2 @ 8 ohms (20Hz – 20kHz, <0.09% THD, both channels driven); High-Current Capability:  $\pm 75$  amps
- General – Dimensions (H x W x D): 110mm x 441mm x 389mm; Weight: 12.6kg

[NOTE: Depth measurement includes knobs, buttons and terminal connections; height measurement includes feet and chassis.]

## Features

- 75W x 2 Into 8 Ohms, 20Hz – 20kHz at <0.09% THD, Both Channels Driven Simultaneously
- High-Current ( $\pm 75$  Amps) Capability Amplifier
- Ultrawide-Bandwidth Amplifier Design
- Five Audio Inputs
- High-Quality Phono Input
- Digital Loop Through for Easy Digital Recordings
- Tape Monitor Loop
- Remote A/B Speaker Switching
- IR Remote Extension Jacks
- Harman Kardon System Remote
